Appliances

Appliances and service contracts can be entered into the Appliance module. Tracking appliance information helps to aid with establishing a daily use rate for the customer. This information also communicates to EnergyTrack Re-Engineered so the driver can be aware of the appliances that run on propane in an *Out of Gas* situation.

1. Press **Ctrl+C** to create.

2. Enter the *Appliance Type*.

3. Enter a *Description*.

4. Enter the *Make*.

5. Enter the *Model*.

6. Enter the *BTU Rating*.

7. Enter the *Serial Number*.

8. Enter *Sold By* information if salesman information is necessary.

9. Enter a *Purchase Date* if one is available.

10. Enter the *Service Contract Type* if this appliance is serviced by your company.

11. Enter the *Begin* and *End Service Contract* if applicable.

12. Enter the *Scheduled Service Month* if applicable.

13. Enter the Tank the appliance is tied to in the *Tied to Tank* field.

14. Enter any necessary *Comments*.

15. Press **Ctrl+Q** to save.
