

EnergyMap - Tank Symbols

Last Modified on 02/24/2026 12:44 pm EST

Auto Fill Tanks

Circle

The Tank is above delivery thresholds set within map settings.

Triangle

The Tank is within the delivery target range indicated in map settings.

Square

The Tank is considered *Critical* as it is at or below the critical parameter in the map settings. The symbol will also have a **Bold** outline.

Julian Tanks

Cross

This is an active Julian delivery tank. If encompassed by a thick **Bold** outline, it is overdue.

Call-In Tanks

Star

This is an active Call-In delivery tank. If encompassed by a thick **Bold** outline, it is considered an Immediate Fill.

If the star is empty, it indicates an inactive Call-In tank, or it has met the OR criteria for tank scheduling.
