

# EnergyMap - Tank Symbols

Last Modified on 08/12/2022 9:52 am EDT

## Auto Fill Tanks

### Circle

The Tank is above delivery thresholds set within map settings.

### Triangle

The Tank is within the delivery target range indicated in map settings.

### Square

The Tank is considered *Critical* as it is at or below the critical parameter in the map settings. The symbol will also have a **Bold** outline.

## Julian Tanks

### Cross

This is an active Julian delivery tank. If encompassed by a thick **Bold** outline, it is overdue.

## Call-In Tanks

### Star

This is an active Call-In delivery tank. If encompassed by a thick **Bold** outline, it is considered an Immediate Fill.

If the star is empty, it indicates an inactive Call-In tank, or it has met the OR criteria for tank scheduling.
