# EnergyMap - Plot Tanks on Map

1. From Energy Force, select the **Plot** icon located in the *Tank* screen. EnergyMap will open automatically. This feature can also be accessed from *Main Menu / Customer Menu / Tanks Not Plotted*.

2. *Plot* mode will be initiated.

3. Zoom in to the area on the map where the tank resides and select the area.

4. The tank will plot on the map and display the appropriate symbol based on the tank type. Select once more on an open area of the map to save the tank plot.

5. Return to Energy Force to plot other tanks as needed.
