Tank Rental Amount Setup

The Tank Rental Amount Setup Maintenance Table is used to determine the rental amount applied to various tank sizes and also indicates the Billing Type (By gallons or dollars). Once this code is created, it can be applied to the customer tank by selecting **Tank Rental Management**. The customer will then be billed for Tank Rental during the Tank Rental Billing process located in the *Month End Menu.*

1. On the *Tank Rental Maintenance* window at *Main Menu / Supervisor Menu / Maintenance Menu / Maintenance Tables / Tank Rental Amounts*, select **Create**. Optionally select a tank rental amount and make any necessary changes.

2. Enter the *Division* for the rental amount.

Division	Tank Rental Code	Tank Capacity	Rental Amount	Start Gallons They Must Use	End Gallons They Must Use
1	1	1000.00	$72.00	0.00	0.00
1	1	1000.00	$50.00	1.00	500.00
1	1	1000.00	$25.00	501.00	999.00
1	1	1000.00	$0.00	1000.00	9999.00
1	1	1250.00	$25.00	0.00	99.00
1	1	1250.00	$0.00	100.00	99999.00
1	2	500.00	$50.00	0.00	0.00
1	2	500.00	$36.00	1.00	500.00
1	2	500.00	$25.00	501.00	999.00
1	2	500.00	$0.00	1000.00	9999.00
1	3	250.00	$50.00	0.00	99.90
1	3	250.00	$0.00	100.00	99999.00
1	3	330.00	$50.00	0.00	0.00
1	3	500.00	$50.00	0.00	99999.00
1	3	1000.00	$50.00	0.00	0.00
1	4	500.00	$1.00	0.00	0.00

3. In the *Tank Rental Code* box, enter a Tank Rental code set up here.

4. Enter the *Tank Capacity*.

5. In the *Rental Amount* field, enter the rental amount to be used when processing Tank Rental Billing.

6. If billing by gallons:

   1. Enter the starting number of gallons the tank renter must use in the *Start Gallons They Must Use* field.

   2. Enter the ending number of gallons the tank renter must use in the *End Gallons They Must Use* field.

7. Choose **Save**.
