MobileService Start Shift

Last Modified on 06/23/2026 4:12 pm EDT

It is advisable to select **Communicate** prior to **Start Shift** (if within a Wi-Fi range) to receive the latest information available.

1. Select **Start Shift**.
2. Select **Choose** by *Vehicle* and *Technician* to make appropriate selections then enter the *Odometer* reading and verify the mileage entered. Select **Continue** to return to the *MobileService* menu.
