

Load / Unload Truck - Propane

Last Modified on 12/18/2024 10:19 am EST

This feature is used to load and unload the trucks. Fuel Transfers are then listed on the Trip Report printed at the end of the shift.

1. Select **Load / Unload Truck** from the *Delivery Menu*.
2. Select the *Type of Transfer (Load or UnLoad)*.

LOAD / UNLOAD TRUCK

Type of Transfer: Load UnLoad

Truck Compartment: Choose Propane

Storage Location: Choose MCCONNELL

Compartment: 1

Complete Transfer

Beginning % Full: 0.0

Ending % Full: 80.0

Temperature (F): 60.0

Gallons Loaded on Truck: 3,200

Product was Odorized?

Back Continue

3. The *Truck Compartment* defaults to *Propane*.
4. Select the *Storage Location* by tapping **Choose**.
5. Enter the *Beginning % Full* (percentage in the truck prior to loading).
6. Enter the *Ending % Full* (percentage in the truck after loading).
7. Enter the *Temperature (F)* (temperature of the product at the time of loading).
8. The system will calculate the *Gallons Loaded or Unloaded on Truck* based on the compartment size, beginning and ending percentages, and volume corrections for the temperature entered (temperature compensation).
9. Checkmark the *Product was Odorized?* option.
10. Tap **Continue**.
11. Select **OK** on the *Fuel Transferred Successfully* message.

Fuel Transferred Successfully

Ok
