

Split Bills - Propane

Last Modified on 02/26/2025 5:23 pm EST

If a tank has been set up for Split Bills in Energy Force, EnergyTrack will automatically invoice the associated customer accounts for their portion of the billing.

If a tank has a split associated, the **Split** button will display in blue. This percentage cannot be modified here but can be modified at the time of delivery.

The screenshot displays the EnergyTrack software interface for managing propane tanks. At the top, there are search options for 'Customer' (selected) and 'Tank', with a 'Search' button. Below this, customer information for 'BARTELL, JAMEY' is shown, including phone number, limit (\$0.00), current balance (\$7,632.27), and terms ('Due the 15th'). A table lists tanks with columns for Serial#, Type, Tank Name, and Size. The second row, '262927 P 1000-DRYER 1000.00', is highlighted. Below the table, tank details for 'RRN 2778' are shown, including delivery address, customer type, and delivery type. The 'Other Info' section includes product details, price, route, and location. A 'Split' button is highlighted in blue, indicating that split billing is associated with this tank. Other buttons like 'Update%', 'Directions', 'History', 'Hold', 'Contracts', 'Call In', 'Start Delivery', and 'Back' are also visible.

Serial#	Type	Tank Name	Size
1103532	P	500-HOUSE	500.00
262927	P	1000-DRYER	1000.00
RRN2777	P	500-PORTABLE	500.00

Split Billing Rules

- When billing splits, the percentage of each member can be modified. All percentages must add up to 100%.
- A member can be modified to 0%. However, new members must be added from the back office.
- Prices can be modified for the split bill members with the exception of contract deliveries. Contract pricing cannot be modified.
- If the tank holder has a contract on file, the contract will automatically apply to the delivery.
- If members of the split have a contract on file that is associated with the same tank type as the delivery, their contract will automatically apply to their portion of the delivery.
- Only one pumpable item can be billed on a split ticket.
- If the tank holder has an applicable discount, all members will receive a discount for their delivery.
- Selecting **Add Items** will have items split among each member based on the split percentage.

Split Billing Delivery

1. Select the customer account belonging to the tank holder and select **Tanks**.
2. Choose **Start Delivery** to make the delivery.
3. Pump gallons as usual and proceed to the *Invoice* screen.
4. The *Invoice* screen will display a checkmark next to the *Split Bill?* field. If the delivery should not apply to the split, uncheck this field. One hundred percent of the gallons will be billed to the tank holder.

5. If pricing or percentages need to be modified for the split members, select **Splits**.

Customer# 126100
BARTELL,JAMEY
