

# Calculate Dollars - Refined Fuels

Last Modified on 06/13/2022 5:35 pm EDT

The **Calculate Dollars** button located within the *Tank* screen allows the driver to enter *Total Dollars to spend* to aid in determining the number of gallons to pump during a delivery. The system calculates the number of gallons to deliver based on the product, price, and taxes associated with the tank. The driver can also enter *Gallons to Deliver* to determine the total price, including taxes, for the selected gallons.

1. Highlight the tank and select **Calc. Dollars**. Tap in the *Total Dollars to spend* or *Gallons to Deliver* field, and select **Calc**.
