

Calculator Feature - Refined Fuels

Last Modified on 02/28/2025 2:32 pm EST

The **Calculator** button located within the *Tank* screen allows the driver to enter *Total Dollars to spend* to aid in determining the number of gallons to pump during a delivery. The system calculates the number of gallons to deliver based on the product, price, and taxes associated with the tank. The driver can also enter *Gallons to Deliver* to determine the total price, including taxes, for the selected gallons.

1. Highlight the tank and select **Calculator**.

Choose Search Criteria Customer Tank

Customer# 100

2. Tap in the *Total Dollars to Spend* or *Gallons to Deliver* field, and select **Calculate**.

Calculate Dollars

Total Dollars To Spend
Dollars To Spend **\$0.00**
Total Tax **\$0.00**
Price Per Gallon
Gallons To Deliver

3. The system will calculate the number of gallons and dollars to spend.
4. Choose **Deliver Gallons** to preset the gallons for delivery or **Cancel** to return to the *Tank* screen.

Note: The *Calculator* program only calculates based on gallons. Regulatory fees, labor, etc. are not included in the calculation. If non-pumpable items will be added to the Invoice, those amounts should be subtracted from the *Total*

Dollars to spend before selecting **Calculate**.
