Deferred Billing Tank Buyout

Last Modified on 11/01/2023 8:36 am EDT

A customer with a tank set up with deferred billing wants to purchase all the gallons in their tank.

Buyout Rules

- All deliveries prior to the Buyout must be posted in Energy Force.
- The tank must be monitored and appropriately set up with deferred billing in Energy Force.
- The Buyout will process for ALL gallons in the tank on that date.
- The price used for the Buyout gallons will be the HIGHER of the average price from the last billing date to the date of the Buyout OR that day's current price.
- If there is an active contract tied to the monitor, the contract price will apply, and the buyout will deplete the contract gallons.
- The Buyout cannot be voided.
- The Energy Force user must have the appropriate user security rights for access to Deferred Billing and Buyouts.

Displayed Information on the Buyout Worksheet

Contract Information

If there is an active contract tied to the monitor, the following contract information will display:

Contract Information	
Contract Number	1401648
Contract Date	04/01/22
Ending Contract Date	11/30/22
Total Gallons Contracted	7,500.0
Gallons Delivered	4,090.3
Gallons To Be Delivered	3,409.7
Contract Gas Price Cents Down	3.4400
Prepaid Balance	\$0.00
Department Prepaid	0

Gallons Owned by Customer

If there is an entry in the Cust Owned Gallons, the information will display:

Gallons Owned by Customer						
Activate Date 12/17/2021 Inactivate Date 12/31/2050						
Customer Owned Gallons						
	499.80					
Balance of Customer Owned Gals						
	17.90					

Tank Information

General tank information is included for reference:

Tank Information	
Tank Capacity	1001.00
Tank ID	2766
Tank Name	
	S1 T2
Tank Serial Number	
	RRN2766

References

There are options to view recent deliveries and RTM reads.

Cust Owned Balance

- A new entry will be created with the Date Monitoring Activated set as the date of the Buyout.
- The Inactive Date will be 30 years forward.
- The Balance of Customer Owned Gals will be the Buyout gallons after usage was billed.
- The *Department Number* is the product of the currently owned gallons if the balance of Cust Owned Gallons is reduced to 0 or if a previous entry was not present. If an entry exists and it has not been depleted, the gallons will be added to the existing entry.

Monitor Last Billing Date

The Billing Date will be updated to the date the Buyout was processed.

Meter Number	Meter Type	Cycle	A/I	Billing Date	Last Reading	Reading Date
S1 T1	4	1	Α	09/27/22	488	08/21/22
S1 T2	4	1	Α	09/27/22	621	08/21/22

Deferred Billing History

Deferred Billing History will update with entries based on what processed in the buyout. The following are possible *Transaction Type* entries:

- Using Cust Owned
- Billed (billed usage)
- Buyout

The Deferred Billing History will continue to deplete the delivery invoices based on the First In, First Out (FIFO) inventory method.

The calculation will use existing customer owned gallons (if applicable), bill any usage since last billing date (if applicable), then the remaining gallons will qualify for the Buyout.

Delivery Date	Billing Date	Delivered Product	Description	Billed Product	Description	TransactionType	Delivery Invoice#	Billing Invoice#	Gallons Delivered	Gallons Billed	Gallons Not Billed

Contract

The Contract will be updated by adding to the *Delivered* gallons, depleting the *Remaining* gallons, and adding an entry in the *Delivery History*.

Customer Sales History

Customer Sales History will show the line item(s) for the Buyout purchase. Transaction Code 15 indicates a contract was billed against at the contracted price while a Transaction Code 13 is used for the Usage and Buyout gallons. The Usage will be billed at the average price from the start of the current month billing cycle to the date of the Buyout. The Buyout gallons are priced at the HIGHER of the average price from the last billing date to the date of the Buyout OR that day's current price.
