

Sales Journal Review

Last Modified on 06/23/2026 9:08 am EDT

When split tanks are billed in Energy Force, multiple line items will appear on the sales journal.

1. Transaction code 14 will be present at \$0.00 for gallons only. This updates the tank.
2. Transaction code 13 will be present for each split bill member. This charges the customer account. In the example below, Energy Force generated a transaction for each member and charged each person for the percentage and price changes made.
