

# Updating Energy Force

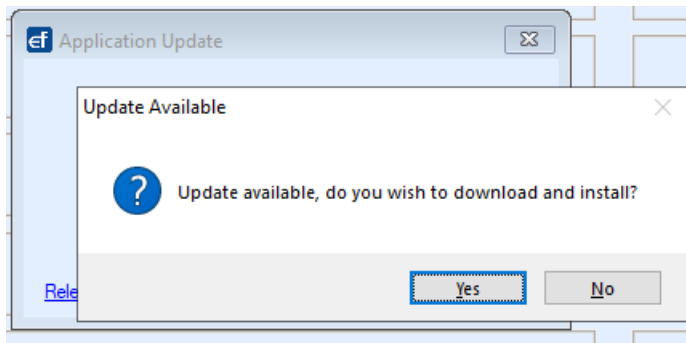

Last Modified on 01/08/2026 11:02 am EST

To update Energy Force or access the Energy Force release notes from within the application:

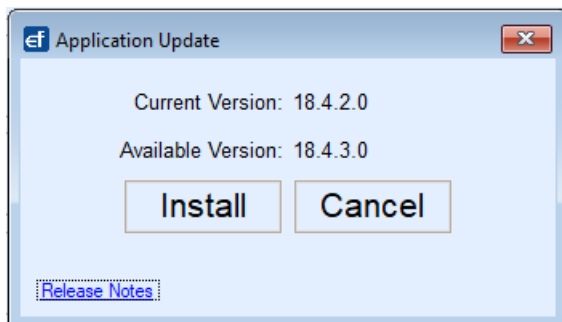

1. Go to *Help / Check for Update* in Energy Force.

Select **Yes** if there is an update available and the download will process.

2. The *Current version* and the *Available Version* numbers of Energy Force displays.

3. Select **Release Notes** to navigate to the Release Notes page in the Energy Force Help Center to read about the current changes in the newest version.
4. Those who have access can select **Install** to upgrade to the newest version of Energy Force.
5. Upon selecting **Install**, the *Update Prerequisites* window will display. Review the information provided and select **Yes** to continue.

Update Prerequisites

The following items should be verified/completed before proceeding for a complete and successful update. Continuing on without checking the following items could result in a failed update.

- \*All mobile devices have been communicated
- \*All mobile trips have been posted
- \*Division/Master Clear has been processed
- \*All users have exited EnergyForce
- \*Any auto task processes temporarily disabled. These will need to be re-enabled after update is complete.

If you would like assistance updating, please contact EnergyForce support at 800-783-6560.

Customer Support Team hours are Monday thru Friday, 8am to 5pm EST.
