March 2023 Release Notes

Consumer Portal

- **EFW-1012 / One Time Payment** – When making a one time payment, multiple payment methods are not available.

- **EFW-1019 / Energy Force Customer ID** – The Energy Force Customer ID is now displayed after the consumer's name on the portal.

- **EFW-1025 / Release Date** – The release date of the current version is now available on the user drop-down menu.

- **EFW-1031 / Auto-Fill Order** – The *Gallons Requested* are no longer automatically filled when using the *Other* fill option.

- **EFW-1017 / Convenience Fee** – If both Credit Card and ACH payment options are available, a convenience fee will not be added to ACH payments.

- **EFW-1003 / Zip Code Field** – When creating a portal account, the *Zip Code* field now stops at five digits.

Merchant Gateway

- **EFW-1018 / NMI Gateway Fields Updated** – NMI Gateway fields for Division, Energy Force Customer #, and Payment Apply To are now updated when a Customer Vault record is created from the EF Portal. These fields are also knows as Merchant Defined Fields 18, 19, and 20.
