

How to Add a New Truck Computer to Energy Force

Last Modified on 03/20/2024 10:18 am EDT

1. From the Energy Force main page, navigate to *Supervisor Menu\Maintenance Menu\Energy Track Menu\Re-Engineered Energy Track*.
2. Press **Ctrl+C** to create.
3. Type in the number that the handheld was named and press Tab.

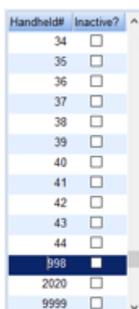

Handheld#	Inactive?
998	<input checked="" type="checkbox"/>

4. Fill in the counters for the *Trip*, *Invoice*, and *Receipt*. The counter numbers must be unique and not assigned to another Truck Computer.

Section	Minimum	Maximum	Current
Trip	998000	998999	998000
Invoice	998000	998999	998000
Receipt	998000	998999	998000

5. Press **Ctrl+Q** to save then **Escape** out of the screen one time.
6. Navigate back into *Re-Engineered Energy Track*.
7. Click on the Truck Computer just added.

Handheld#	Inactive?
34	<input type="checkbox"/>
35	<input type="checkbox"/>
36	<input type="checkbox"/>
37	<input type="checkbox"/>
38	<input type="checkbox"/>
39	<input type="checkbox"/>
40	<input type="checkbox"/>
41	<input type="checkbox"/>
42	<input type="checkbox"/>
43	<input type="checkbox"/>
44	<input type="checkbox"/>
998	<input checked="" type="checkbox"/>
2020	<input type="checkbox"/>
9999	<input type="checkbox"/>

8. Edit the options to match them to another Truck Computer for the same truck type. The setting is case sensitive and must equal Y or N.

Note: Make sure to check Y to *Use Multi-Delivery Screen?*

26	Use Multi-Delivery Screen?	Y
----	----------------------------	---

9. Once finished with the options, press **Ctrl+Q** to save.
