

# Tanks - SKY Energy

Last Modified on 10/10/2024 12:15 pm EDT

A listing of all Tanks is available in SKY Energy. The list can be narrowed down by selecting the **Filter** icon and entering a filter criteria or search by *ID, Name, Address, or City and State* in the *Search Customers* bar located in the header. When typing, the grid will populate based on the text entered. Choose the **Ellipsis** at the top to Reset Grid from filtering or Autofit Columns.

The *Calculated* by column displays what the *Estimated Left (%)* is being calculated by.

- **Monitor** – Displays when a monitor reading for the tank within the last 5 days is available.
- **K-Factor** – Displays when no reading within the last 5 days and the Update k-Factor option is on for the tank.
- If not calculated by either, the grid will display a double dash (- -).

The *Delivery Type* column displays the Delivery Type associated with the tank. This could be *Calendar Days*, *Scheduled Delivery*, or *Will Call*.

For more information on how to use the Tank grid see, [Using Grids in Agvance SKY](#).

Selecting a Customer name opens the *Overview* page. To view more Customer details select the Customer name link on the Tanks tab to open that specific Customer's **SKY Customer Overview** page. Read more about the [SKY Customer Overview](#) page.
