

Plot Tank Feature - SKY Energy

Last Modified on 02/19/2026 12:56 pm EST

When adding a new tank under *SKY Energy / Tanks / + Add Tank*, the *Delivery* section allows for choosing to pin-point plot the tank's location on a map view.

Select **Plot Tank** to use this feature.

Use *Zoom to Address* bar to enter an Address, City, State or Zip, focusing the map to a specific location to plot the tank.

- By default this field will pre-populate to the Delivery Address if one was entered on the tank form already.
 - If no address was entered, the map will zoom to the Zip Code last used by the SKY Energy Map.
 - If no address was entered and no Zip Code was found, the map will zoom out to display all of North America with the option to enter an Address, City or Zip Code in the *Zoom to Address* bar to find/zoom in on.
 - The Address, City or Zip Code can be changed in any scenario above manually by the backspacing and typing a new search string, then selecting **Search Map**.

Map

Satellite

The map shows Shelbyville, IL 62565. Key landmarks include Shelby County Airport-2H0, Walmart Supercenter, Mark's Floors, Graphic Packaging International, House of Expectancy Full Gaps, Riverfront private campground, B&W Machine Inc., Hennings Farms, and Lakeview Family Restaurant. A 'Plot Tank' icon is visible on the map. The map is titled 'Shelbyville, IL 62565' and includes a 'Search Map' button. The map is titled 'Shelbyville, IL 62565' and includes a 'Search Map' button. The map is titled 'Shelbyville, IL 62565' and includes a 'Search Map' button.

Cancel

Double Click to plot tank.

Save Lat/Lon

A **Plot Tank** icon serves as the cursor and by hovering over the map to where the tank should sit then double clicking, the tank's location is plotted on the map.

If the location looks correct, select **Save Lat/Lon** to return to the Add Tank form and proceed to **Save** to save new lat/lon for the tank.
